

What to Expect in Your Immanuel Prayer/Healing Codes session

Immanuel Prayer + Healing Codes are a very powerful combination.

This is because The Healing Codes work on healing the “heart issues”—those negative images, beliefs, memories—that can block your perceiving God as He truly is and block your receiving of the grace He longs to give you.

This is why we start with a Healing Code right off. We will uncover your issue that is bothering you the most. I will then pray for you and the issue, and do a short Q Code for you. (To find out what Q Codes are, see www.qcodesinfo.com.) It will take about 2 minutes for me to do this for you.

The goal of an Immanuel Prayer session, however, is not primarily healing. It is to connect with Immanuel, “God with us,” and grow in a personal relationship with Him.

In this context, then, while I’m doing the Q Code, you will be asked to think of a time when you either felt God was real to you in some way, or just some moment of appreciation that puts a smile on your face.

When I am done with your Q Code, I will ask you what came to mind. I will then guide you to “notice” whatever is going on with you. I will continue to facilitate your awareness of Immanuel’s presence.

Because this is an encounter with the Living God who knows you so well, it will be individualized to you. I never know what will happen, but I do expect Jesus to show up.

And when He does, you will begin to be transformed in some small or big or anything in between way.

You can view more about Immanuel Prayer from the links on my web page. If you haven’t reviewed them and would like to do so now, go to <https://dianeeble.com/immanuelprayerminister.html> and click on the links given there that interest you.

At the end of a session, which should last about an hour, I will give you a custom Healing Code to work on for whatever your issue is by the end of the session. Sometimes it's the same thing you started out with, sometimes not. Usually these custom Healing Codes are very strong for about 2 weeks. After that, they can lose their power because they're matched so specifically to the issue when we get the Code. As you heal, frequencies shift and the Code "goes out of sync." At that point, your heart serves up the next issue it's ready to heal.

And so your journey continues.

With one client's very first Healing Code/Immanuel Prayer session, Jesus showed her the 5 lies she was believing, and what the truth was. She was hooked. She said, "Let's always just do Immanuel Prayer!" And so we did, for quite a long time.

I am very eager to start your journey deeper into the heart of Immanuel with you. Return your Consent form and let's get scheduled!
